

DODIINU WHITE PAPER

Version 1.0

www.dodiinu.world

Abstract

DODI INU (\$DODI) is a revolutionary meme token designed to create a secure and prosperous environment within the cryptocurrency space. Born from the popular Dog Meme culture, DODI is the Great Son of DOGE and SHIBA.

DODI INU aims to unite all Dog-themed tokens under one community with a shared vision: to protect investors from scams and rug pulls, ensuring a stable and thriving ecosystem. By encouraging staking and rewarding participants with transaction fees, DODI INU aims to achieve token scarcity, price stability, and a dedicated community of investors and enthusiasts.

Introduction

In the rapidly evolving world of cryptocurrency, the rise of meme tokens has captured the imagination of millions. However, this surge in popularity has also attracted scammers and bad actors, leading to numerous cases of fraud and rug pulls. DODI INU seeks to change this narrative by becoming the guardian of the crypto world, uniting Dog-themed tokens, and fostering a safe and collaborative environment for all investors.

Vision

Our vision is to create a safe haven in the Crypto World where all Dog-themed tokens can thrive without the fear of scams or rug pulls. DODI INU aims to be the standard-bearer for security and community collaboration, ensuring that all Dogs succeed together.

Mission

DODI INU's mission is to:

- Protect the crypto community from scammers and rug pullers.
- Unite all dog-themed tokens under one collaborative community.
- Promote token scarcity and price stability through a robust staking mechanism.
- Reward loyal stakers with transaction fees, incentivizing long-term holding and community participation.

Tokenomics

Tokenomics :

Token Details

Token Name: DODI INU

Ticker Symbol: \$DODI

Total Supply: 7,280,000,000 DODI

Community Airdrop: 2%

Fair Launch

Transaction Fee : 3%

Staking Mechanism

To promote long-term holding and reduce the circulating supply, DODI INU introduces a unique staking mechanism. By staking \$DODI tokens, participants lock up their tokens for a period of 50 days, during which they earn 100% of the transaction fees generated within the network.

Key Features

Token Scarcity: By locking up \$DODI tokens, the circulating supply is reduced, leading to increased scarcity and potential price appreciation.

Reward Distribution: Stakers receive 100% of the transaction fees, distributed proportionally based on the number of tokens staked.

Staking Timers: Different staking timers ensure that not all tokens are released back into circulation simultaneously, promoting price stability.

Community Building

Uniting the DOGS

DODI INU aims to bring together all dog-themed tokens, creating a powerful and united community. By collaborating with other projects and fostering a spirit of mutual support, DODI INU will ensure that all dogs succeed together.

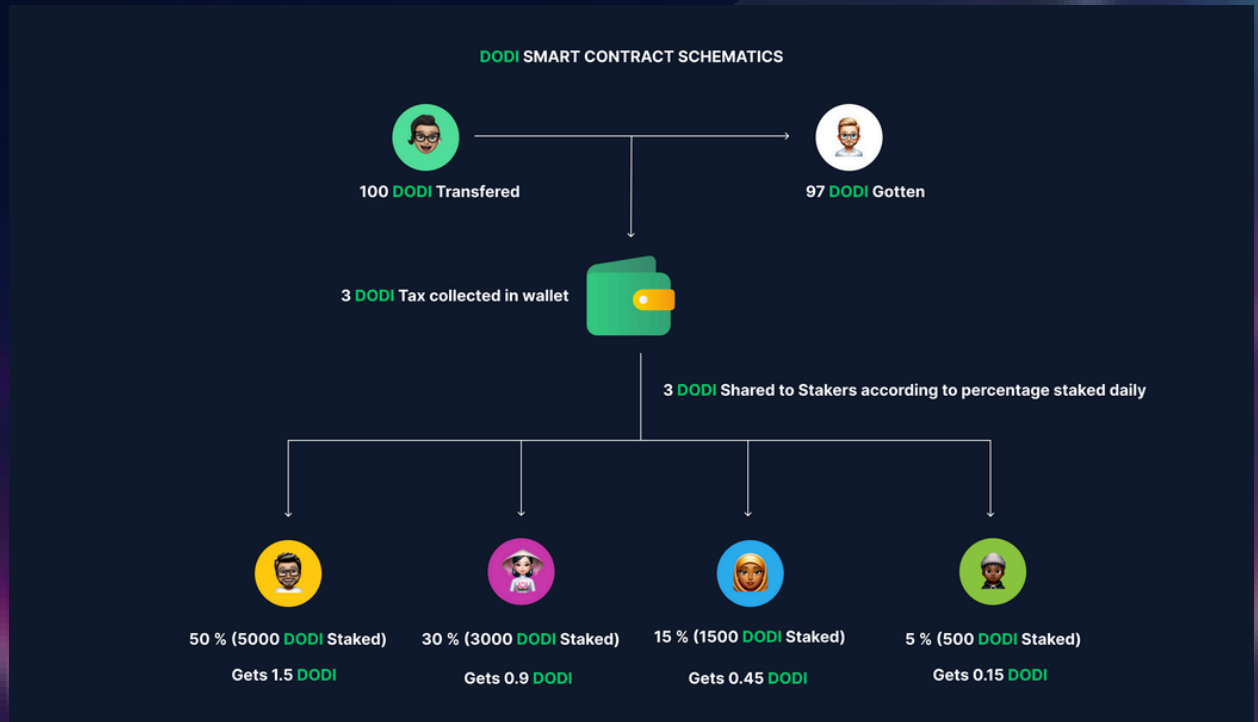

Community Engagement

The DODI INU community will have a say in the development and direction of the project. Through decentralized governance, token holders can propose and vote on key decisions, ensuring that the project remains aligned with the community's interests.

Security Measures

To safeguard the community, DODI INU will implement rigorous security measures, including:

Smart contract audits by reputable firms.
Regular security updates and patches.
Transparent development practices and regular communication with the community.

Roadmap

Phase 1: Launch and Community Building

Launch of DODI INU token
